3.4. Open an order.

3.4.1. The obligatory parameters for submitting an order are:

Name of the tool;

Trade volume;

## Order type

3.4.2. To open an order by means of the client terminal without using an expert advisor, the Client should press the button “Buy” or “Sell” at the moment, when Company’s quotes satisfy him/her.

3.4.3. To open an order by means of the client terminal using an expert advisor, an order should be generated to perform trade at a current quote.

### 3.4.4. Order processing for open orders

a) At the moment when a Client’s order to open the position comes to the server, an automatic check of the trading account for free margin for the open order is carried out. In the event that the necessary margin is present, the order is opened. If the margin is not sufficient, the order is not opened, and a notice about absence of funds is created on the server.

b) In case of the “Market execution” trading tool type, a quote for opening an order may differ from the requested one.

c) The note about the open order appearing on log-file of the server declares that the Client’s request has been processed and the order has been opened. Each open order on the trading platform receives a ticker.

d) An order to open a position submitted for processing before first quote appears on the trading platform at market opening, will be declined. In this event in the client terminal window a message will appear “No quote/trading is forbidden”. In the event of the Dealer processing by mistake a Client request to open an order at the price of the previous day closing, the Company is liable to cancel such an order. In such a case the Company contacts the Client and informs about it.

## 3.5. Close an order

3.5.1. To close an order by means of the client terminal without using an expert advisor, the Client should press the button “Close” in the moment, when Company quotes satisfy him/her.

3.5.2. To close an order by means of the client terminal using an expert advisor, an order shall be generated to close the order at a current quote.

3.5.3. The following orders “Stop Loss” and/or “Take Profit” may be used for closing an order.

#### 3.5.4. Processing orders to close a position

a) If in the list of open orders on a trading account there are two or more locked positions, then while generating a request or an order to close any of those, an option “Close by” appears in the dropdown “Type” list. After choosing it, one or several open positions of the reverse direction appear. After marking the needed position from the list, a button “Close#...by#...” is activated. By pressing it the Client closes locked positions of equal volumes or partly closes two locked positions of different volumes. In such a case a smaller position and a symmetric part of a bigger one close, and a new position in the direction of a bigger between the two stays open, thus receiving a new ticker.

b) If in the list of open orders on a trading account there are two or more locked positions, then while generating a request or an order to close any of those, an option “Multiple Close by” appears in the dropdown “Type” list. After choosing it, a list of all positions for the given tool appears and a button “Multiple Close By for...” is activated. By pressing this button the Client closes all locked positions for the tool. In such a case a new position(s) stays open in the direction of a bigger total volume, which receives a new ticker. Important: functions “Close By” and “Multiple Close By” do not operate for the tools with floating stock spread.

c) When the note about closing a position appears in the log-file, this means that the Client’s order to close a position has been processed.

d) If an order to close a position has been submitted for processing before a first quote appeared at the trading platform at market opening, such an order shall be declined by the Dealer. In the client terminal window a message “No price” will appear. The Company is entitled to cancel trade when the Dealer processed the Client’s order to close a position at a quote of a previous day closing by mistake. In such a case the Company contacts the Client and informs about it.

e) If a “Market execution” type is used for a trading tool, quote for closing an order may differ from the requested one.

3.5.5. In the event that an Instrument becomes subject to a corporate event as set out below, the Company will take the appropriate steps to adjust your trading account for the effect of the event on your position, preserving the economic equivalent of the rights and obligations attached to your

transaction and/or contract with the Company, on the ex-date of the event (i.e., the day the affected instrument's price will incorporate the effect of the event).

Corporate events shall include the following:

(a) Dividends; if an underlying instrument grants dividends (CFD Cash Index or stock), a cash adjustment will be made, equivalent to that paid to clients with an open position in the Underlying Instrument.

The operation of accruing or writing off dividends is performed as a separate balance sheet operation and depends on the direction of the position. If the position is Sell, the dividend sum is written off; if it is Buy, the dividend sum is accrued. We try to make such adjustments as timely as possible. However, as we are dependent on notification from an external third party, we shall not be liable for the consequences of any delayed adjustments.

(b) Takeovers or mergers (including spinoffs), depending on their terms may result in a cash adjustment similar to that of dividends;

(c) Any other event of a similar nature to the aforementioned events that may have a concentrating or dilutive effect on the market value of the instrument.

3.5.6. If the Company receives notice or becomes aware that the underlying instrument for any instrument held by you in the Account may be delisted and/or withdrawn and/or canceled from any exchange (or any part of any exchange) and the Company considers that it will be unable to provide instruments in respect thereof, it will endeavor to close any open orders on your behalf at such time, price and in such manner as it determines, including but not limited to on the basis of the last quotation available.

### 3.6. Mandatory position closure.

3.6.1. If the Margin level is lower than 40% (lower than 100% for crypto-based CFD) in a client's account, a margin call occurs. The Company is entitled but not liable to close Client positions. The decision to close positions is made by the server.

3.6.2. The Company is entitled to mandatorily close open Client positions without prior notification if a Margin level is less than or equal to 20% (80% for crypto-based CFD instruments) of the margin necessary to maintain open positions.

3.6.3. The current account balance is controlled by the server, which in the event of execution of P. 3.6.2. of the present Agreement generates an order to stop out. Stop out is executed at a current market quote on a first -come basis with Client orders. Mandatory position closure is noted in the log-file of the server with a notice "stop out".

3.6.4. In the event of executing conditions of P. 3.6.2. of the present Agreement shall the Client have several open positions, the first position closed is the one with biggest floating loss.

3.6.5. If the Client's account has a negative balance after a mandatory position closure, compensation will be added to the account, setting the account to zero. However, in exceptional cases (when the Company considers the Client's actions intentional), the Company reserves the right to demand a debt payment from the Client in the amount equal to the compensation added to the account.

3.6.6. In case the Company has reasons to believe that a Client operates two or more accounts under different registration data (e.g. opening opposite orders on the same trading instrument that are left open over the weekend or during the period between trading sessions), FBS reserves the right to deduct the losses exceeding the balance of one account from the funds of another account belonging to a Client.

3.6.7. In case Balance fixed occurs on a client's account, the amount of funds compensated by the company will be deducted from the total sum of the Cashback commission to be paid for the current day.

### 3.7. Leverage change

3.7.1. The Client has the right to change the leverage at any time, including when the account is in trading mode (when there are open orders).

3.7.2. The Company is entitled to change leverage at any time without prior notification on any or all of Accounts depending on the sum of equity on each or all of Client's trading accounts in accordance with clause 3.7.3. of the Agreement.

3.7.3. The Company is entitled to apply clause 3.7.2. to already opened positions as well as to reopened positions.

6.4. An Introducing Broker is prohibited to receive any reward from trading on his/her own account(s) or accounts belonging to his/her relatives or any other affiliated parties (whether an Introducing Broker is an individual or a legal entity).

## 7. Commissions and Introducing Broker Fees

7.1. The Company shall pay to the Introducing Broker Commission in the amount specified in Section 7 of this Agreement for each opened trade and for each closed trade on all trading accounts (MT4, MT5, and FBS Trader) of the Client introduced to the Company by the Introducing Broker, excluding trades closed by counter position.

7.2. The Introducing Broker Commission will be charged according to the Introducing Broker's Grade.

7.3. "Grade" means Introducing Broker's level depending on the size of the Payout. Payout refers to a quantitative indicator that is based on the average monthly Commission in US dollars paid to the Introducing Broker for the previous 3 months. When calculating the average monthly Commission, only commissions received by the Introducing Broker directly from his Clients will be taken into account. The Commission received by the Introducing Broker from Clients of his Level B Partner is not taken into account.

7.4. The Grade is recalculated on the first day of each month as follows:

Grade	Payout (Average monthly commission for 3 previous months + Experience Bonus)		R (Coefficient depending on the grade), %
	From	To	
1	\$0	\$24.99	30%
2	\$25	\$249.99	33%
3	\$250	\$999.99	36%
4	\$1000	\$2999.99	38%
5	\$3000	\$9999.99	41%
6	\$10 000	-	43%
7	Determined by the Company		Determined by the Company

The Experience Bonus is determined as the total commissions received by the Introducing Broker over a period of up to three years divided by 100. The three years over which the commissions are calculated may start no earlier than January 1, 2021, and end on the second month preceding the calculation month. The Experience Bonus cannot exceed one thousand (1000) US Dollars.

For example, on November 1, Grade is calculated.

Experience Bonus = total commission from 1.01.2021 to 30.09.2023 / 100.

7.5. The Introducing Broker Commission is calculated as follows:

7.5.1. If the spread is less than or equal to the average spread for the week, then Commission =  $R * (1/2 \text{ instrument spread} + \text{FBS Commission}) * \text{per volume}$ . The Commission is calculated separately for opening and closing a trade.

7.5.2. If the spread exceeds the average spread for the week, the Commission =  $R * (1/2 \text{ instrumental spread} + \text{FBS Commission}) * \text{volume} * \text{reduction rate}$ . The Commission is calculated

separately for opening and closing a trade. The reduction rate means the average spread divided by the spread at the open or close.

7.5.3. The amount of the Introducing Broker's commission from trades of clients with the "Fix Rate" option enabled is calculated in accordance with clauses 7.5.1. and 7.5.2. taking into account the following instrument spread value, which results from the operation referred to in subclause "b" of this clause:

A. the spread expressed in a fix rate is converted into local currency at the following rates:

1 USF = 10 000 IDR (Indonesia)

1 USB = 33 THB (Thailand)

1 USN = 400 NGN (Nigeria)

B. then the local currency spread resulting from the conversion in accordance with subclause "a" of this clause shall be converted into U.S. dollars at the exchange rate in effect at the time of conversion.

7.6. Spread refers to the difference between the Ask and Bid price of an instrument at a point in time.

7.7. The Introducing Broker Commission for all acquired Client accounts is calculated and paid, if there is a Commission to be paid, once every 24 hours.

7.8. For all account types except the Cent account, the Introducing Broker Commission of less than 1 USD cent for opening and/or less than 1 USD cent for closing of trades will not be accrued or paid.

For the Cent account, the Introducing Broker Commission of less than 0.1 USD cent for opening and/or less than 0.1 USD cent for closing of trades will not be accrued and will not be paid. In this case, if the sum of all Introducing Broker commissions accrued for the day is less than 1 USD cent, the Introducing Broker commission of less than 1 USD cent will not be paid.

7.9. The Company may downgrade an Introducing Broker for breach of this Agreement or for fraudulent conduct by an Introducing Broker or increase the Introducing Broker's Grade as a reward, at its own discretion.

7.10. In the event the Introducing Broker Commission was received for hedged orders (Buy and Sell orders opened for the same instrument and held in the market simultaneously), the Company has grounds to consider the Introducing Broker's actions fraudulent and reserves the right to cancel the paid Commission and to detach the involved Client or Clients.

7.11. In the event the Introducing Broker Commission from one Client exceeds 30% of the total Introducing Broker Commission for a period of 1 to 6 months before a withdrawal request, the Company reserves the right to cancel it.

7.12. In the event the total amount of the Introducing Broker Commission from one Client account exceeds 60% of the total amount of deposits for this account, the Commission can be adjusted at the Company's discretion to an amount less than 60% of the total amount of deposits for this account.

7.13. The Introducing Broker Commission cannot exceed 50% of the average Equity for all Client accounts for the reporting month. The average Equity is calculated as:

$$E = \frac{\sum E_1 + E_2}{2}, \text{ where}$$

E — average Equity,

E1 — Equity at the beginning of the month for all Client accounts,

E2 — Equity at the end of the month for all Client accounts.

7.14. The Commission set in this Section 7 is the only type of fee paid by the Company to the Introducing Broker. There are no other fees to claim by the Introducing Broker.

7.15. The Introducing Broker Commission is paid in U.S. dollars regardless of the currency specified in any of the Introducing Broker's Client accounts.

7.16. The initial withdrawal of the Introducing Broker Commission via debit/credit cards is prohibited. Introducing Brokers from countries where local banks are available must first withdraw the Introducing Broker Commission into their local bank account.

7.17. In exceptional circumstances, the Company reserves the right to unilaterally determine the available methods for withdrawal of the Introducing Broker Commission.

7.18. The Company reserves the right to modify Commissions and Introducing Broker Fees.

7.19. In the event a Balance fix occurs on a Client's account, the Company reserves the right to deduct the amount of funds compensated by the Company from the total sum of the Introducing Broker Commission for that Client's trading that was paid out on the same day the Balance fix occurred.

## 8. Term of validity

8.1. This Partner Agreement comes into effect after it is accepted by the Introducing Broker on the Website, and it is valid until the moment when one of the parties decides to terminate it. The Company may require a signed Partner Agreement at any time.

8.2. Either party (Company or Introducing Broker) can terminate the Agreement by giving five (5) business days written notice to the other party.

8.3. The Company shall reserve the right to terminate or suspend without notice this Agreement or any rights of the Introducing Broker that may fall under the provisions of this Agreement and/or its annex hereto attached or related, due to any malpractice, breach, failure or other significant events, including liquidation or insolvency, on the part of the Introducing Broker. Such termination will be at the sole discretion of the Company.

8.4. Upon termination of the Agreement, the Introducing Broker is obliged to return to the Company any Company materials used to promote his business (e.g., newsletters, banners, text, etc.). In the case where the Introducing Broker maintains a website, social media and is using any Company materials, the Introducing Broker is obliged to immediately withdraw such materials upon the termination of the said Agreement.

8.5. Furthermore, the Company may terminate this Agreement forthwith for cause, upon written notice to the Introducing Broker, if: (a) it becomes unlawful for the Company and/or the Introducing Broker to perform or comply with any one or more of the Introducing Broker's obligations under this Agreement; or (b) the Introducing Broker ceases, in Company's reasonable opinion, to be fit and proper to introduce/provide the Services to Company, if the Introducing Broker no longer holds the necessary authorization, license or consent to perform the obligations under this Agreement or if is

prevented for any reason from carrying out the activities and/or obligations hereunder; and (c) in the event of any change in applicable law or government regulations.

## 9. Force Majeure

9.1. None of the Parties shall be liable for its partial or complete failure to meet its commitments in case it is caused by force majeure events (civil unrest, war, insurrection, international intervention, governmental action including, without limitation, exchange controls, forfeitures, nationalizations, devaluations, natural disasters, acts of God, and other inevitable events. Not depending on the will of any of the Parties).

9.2. The Party, which due to force majeure events cannot meet its commitment, shall inform the counterparty about it in written form during 5 days after the aforementioned events has occurred.

9.3. The facts mentioned in this notification must be confirmed by a proper authority or an organization of the Party's country of residence. Failure to notify the other Party on time shall not be considered a basis to release the Party from the responsibility.
